July 2015

Dear Friends of MAMA Project,

This summer we have many reasons to celebrate! Our warehouse is full to capacity with precious donations that are destined for Honduras. There they will benefit families who are in desperate need of the basic necessities of life.

It always warms our hearts to know that we have a part in bringing hope and help to people who find themselves deprived of adequate food, medical care and the means to stay warm and safe. Even toys are incredibly important in helping to stimulate the mental and physical development of children who need attention to be able to achieve their potential in life.

Every type of donation that we send has a special niche to fill. This also includes baby kits, school kits, medical equipment, MAMA office supplies, medical & dental brigade supplies and medicines for health centers and hospitals that serve the poor without charge.

We need about \$10,000 for each 40 ft container shipment, including costs for customs and transportation. **Please help us** to cover these expenses.

Thank you for your support, in the past and in the future. Every donation is appreciated - whether material or financial. On behalf of our friends in Honduras -

“¡Gracias & Dios les Bendiga!” or “Thank you and God Bless you!”
